COLOR SCHEMES

The success of a room is not determined
by the amount of money expended upon its
treatment, but is the result of a discriminate
and individual selection of colors chosen to
carry out some idea and producing a sense of
harmony, comfort and repose.

Knowledge and experience have taught me
that to obtain these results it is necessary to
successfully balance proportion color and de-
sign and I solicit an opportunity to show you
a number of complete schemes embodying
these ideas.
